WINBAG® MAX

A MUST HAVE FOR EVERY PROFESSIONAL TOOLBOX

The WINBAG® MAX is a very powerful hand operated inflatable air cushion made of fiber reinforced material that will save you countless hours on the jobsite. It is designed to provide a maximum pressure of up to 550lbs/250kg and can be used in conjunction with shims and wedges in a wide variety of applications. The WINBAG® MAX gives the user infinite adjusting possibilities; save time installing windows, positioning heavy doors and leveling furniture, kitchen cabinets and household appliances just to name a few practical uses.

TECHNICAL DATA

Load Capacity: 550lbs/250kg/per WINBAG® MAX

Joint Width: 0,07 in - 2,16 in / 2 mm - 70 mm

Material: Fiber Reinforced Material

CAUTION: The WINBAG® MAX should always be considered a supplementary tool, and normal precautions in the work environment should be followed. The WINBAG® MAX is capable of producing powerful pressure between it and its surroundings and caution should therefore be exerted when inflating and deflating. When fully inflated the WINBAG® MAX takes on a rounded shape, from which elements can potentially slide or roll off from a relatively high position. The pressure in the pillow element will slowly decrease during use and the WINBAG® MAX may also suddenly deflate if, for example, punctured by sharp objects such as screws and drills during use. Therefore, always make sure that parts being held in place or separated by the WINBAG® MAX are firmly secured by other means. Use care when inflating and deflating WINBAG® MAX and make sure that no body parts such as fingers or toes are between WINBAG® MAX and its surroundings and/or between the parts being held in place. Make sure the same applies for any individuals close to the application and that they are not standing too close to elements on which WINBAG® MAX is being used. WINBAG® MAX may only be operated by hand using the rubber hand pump. Never use pneumatics on the WINBAG® MAX, and never tamper with or modify the state in which the WINBAG® MAX was originally purchased. Do not exceed the maximum load stated per WINBAG® MAX for any job even when using more WINBAG® MAX units at the same time. Local building regulations and any other relevant laws must be followed when using WINBAG® MAX.
