A MUST HAVE FOR EVERY TOOLBOX

The WINBAG® MINI is a very powerful hand operated inflatable air cushion made of fiber reinforced material that will save you countless hours on the jobsite. It is designed to provide a maximum pressure of up to 70kg and can be used in conjunction with shims and wedges in a wide variety of applications.

The WINBAG® MINI gives the user infinite adjusting possibilities; save time installing windows, positioning heavy doors and leveling furniture, kitchen cabinets and household appliances just to name a few practical uses.

SAVE TIME

When you use WINBAGS®, installation is done quickly. One man can easily do the job alone even with large projects.

70KG

Each WINBAG® is a strong well tested product with a load capacity of up to 70kg for each WINBAG®.

SCRATCHES

The WINBAG® is a soft air cushion which doesn't leave marks and protects the project.

2MM - 40MM

The WINBAG® can be used for joints from 2MM - 40MM. The effective pump lets the air do the job.

EMPTY JOINTS

Window Installation with the WINBAG® MINI leaves joints empty and ready for sealing.

SHIMS

The WINBAG® is a great complimentary tool to use with shims. They are durable and reusable.

TECHNICAL DATA

Load Capacity: 70kg • 155 lbs per WINBAG® MINI

Joint Width: 2mm - 40mm • 3/32" - 1 5/8"

Material: Fiber Reinforced Material

WINBAG® is a Registered Trademark

CAUTION The WINBAG® should always be considered a supplementary tool, and normal precautions in the work environment should be followed. The WINBAG® is capable of producing powerful pressure between it and its surroundings and caution should therefore be exerted when inflating and deflating. The pressure in the pillow element will slowly decrease during use, and it is also possible to puncture the WINBAG® with sharp objects such as screws and drills during use. Therefore, make sure that parts being held in place or separated by the WINBAG® are firmly secured by other means. Use care when inflating and deflating WINBAG® and make sure that no body parts such as fingers or toes are between the WINBAG® and its surroundings and / or between the parts being held in place. The WINBAG® may only be operated by hand using the rubber hand pump. Never use pneumatics on the WINBAGS® and never tamper with or modify the state of which the WINBAG® was originally purchased. Do not exceed the maximum load stated per WINBAG® for any job even when using more WINBAGS® at the same time. Local building regulations and any other relevant laws must be followed when using WINBAGS®.
